COOLING AND DISPENSING SYSTEMS

DESIGN & TECHNOLOGY

Clean stainless steel lines with the unique recirculation technology to the taps makes this tower a clear candidate for a place in your business.

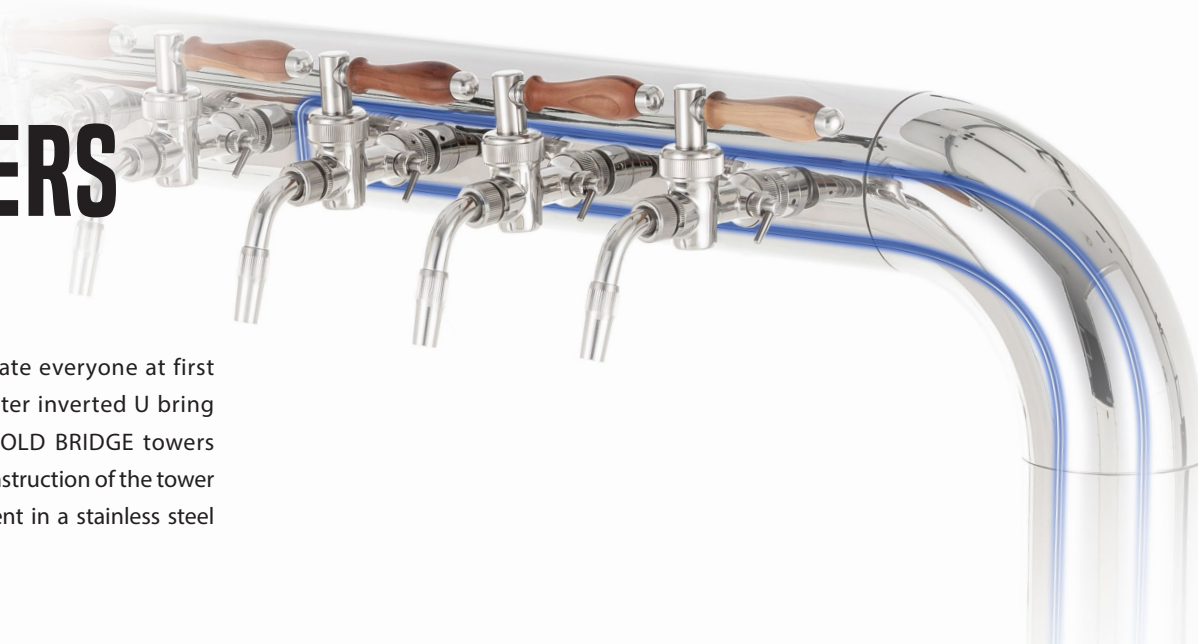

COLD BRIDGE U DISPENSE TOWERS

NUMBER OF TAPS 4 - 6 - 8 - 10

Our latest line of LINDR COLD BRIDGE taps will captivate everyone at first sight. These towers are designed in the shapes the letter inverted U bring design and bring cleanliness without welds. LINDR COLD BRIDGE towers are currently the best in the area of dispensing. The construction of the tower offers a basic diameter of 8 mm for beverage management in a stainless steel design with the possibility of change to 10 mm.

^ RECIRCULATION

The unique design of the tower ensures cooling of the beverage up to the tap via a fully insulated coil.

< PRESENTATION OPTIONS

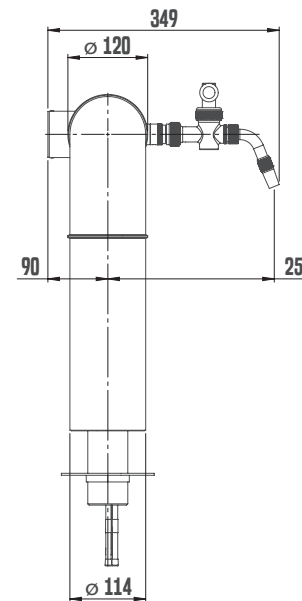

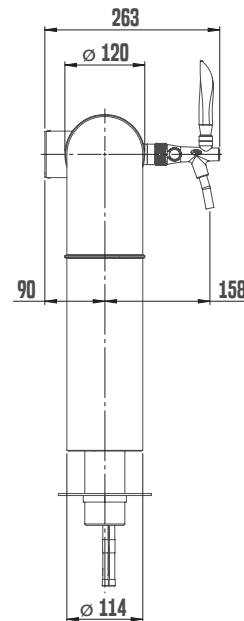

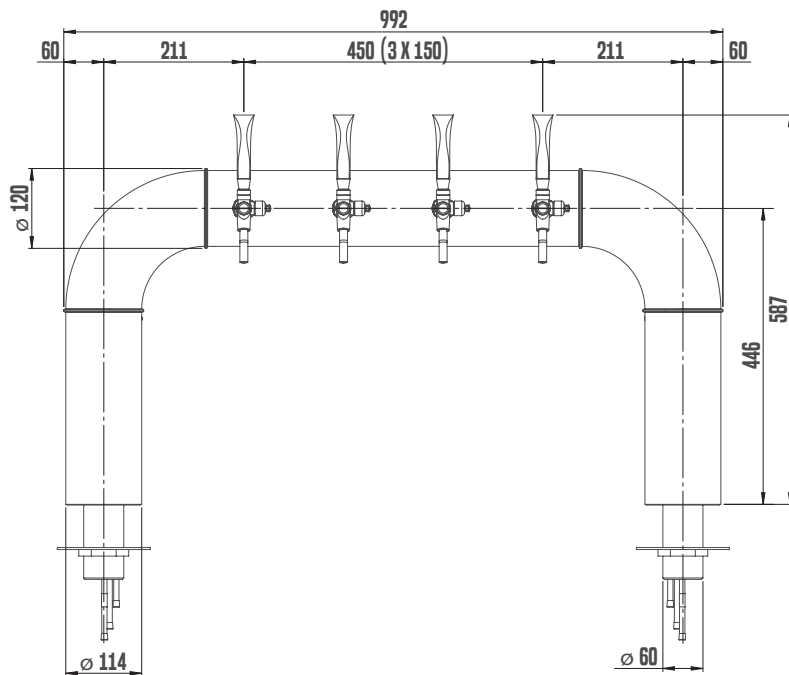

Backlit medallions can be installed in a straight version or a fish eye variant.
