

AS-200 NEW 6X COILS GREEN LINE

The AS-200 NEW GREEN LINE series has an ice bank and represents Lindr's most powerful water coolers to date.

The AS-200 NEW GREEN LINE under-table water coolers are fitted with standard cooling technology using an ice bank, and are mainly used in large hospitality facilities handling very large output. The design makes it easy to install, e.g. under the bar or in other premises. Their compact size, a drain valve to easily drain the water from the equipment, and a water gauge to keep track of the contents are a great asset. The version with six cooling coils means six different beverages can be cooled at the same time.

| BENEFITS AND USEFUL FEATURES

INNOVATION – All of our contact coolers undergo continuous development and meet all the latest safety standards and certifications (Czech and European).

AS TECHNOLOGY – Water cooling technology with an ice bank, where full ice supply provides maximum cooling performance.

OUTPUT – The AS NEW GREEN LINE tapping equipment, with its increased continuous output, allows for the continuous serving of quality chilled beverages in quantities corresponding to their numerical marking in litres.

AGITATOR PUMP – The cooler incorporates an agitator pump with an aftercooling pump with a discharge of 8 m.

GREEN LINE – The LINDR GREEN LINE technology is environmentally friendly thanks to the use of the eco-friendly refrigerant R-290. Thanks to this design, each product

R 290 
ENVIRONMENTALLY
FRIENDLY REFRIGERANT

achieves 20% higher energy efficiency and 20% lower power consumption. We have introduced an energy saving system in the production.

DURABLE SURFACE – The cooler is made of highly durable coated plastic material.

CONSTRUCTION AND SERVICE – The modern layout of the cooling technology guarantees easy accessibility for any service and maintenance.

EQUIPMENT – Standard features include a thermostat for smooth and precise beverage temperature control, a cooling coil and quick couplers.

COMPACT DESIGN – The AS series coolers have the best output, size and price ratio on the market.
