COOLING AND DISPENSING SYSTEMS

## DESIGN & TECHNOLOGY

The models have an area for placing a wooden medallion or backlit advertising.

# LINDR TUBE DISPENSE TOWERS

NUMBER OF TAPS 1

We only left the absolutely necessary components on it. It is suitable where there is really little space, but at the same time, thanks to the all-stainless steel design without welds and clean lines, it is one of the sleek design towers. All models are completely in all-stainless steel, subtle design with one tap. The surface treatment is possible in the polished stainless steel or sandblasting.

## ^ PRESENTATION OPTIONS

Each tower allows the placement of a wooden medallion or backlit advertisement with its own logo.

## < STAINLESS STEEL VERSION

The entire construction of the tower is in stainless steel. As a result, these are not as easily damaged as with surface-treated brass towers and last longer.

NUMBER OF TAPS 1

The TUBE tap tower can be supplied in various variants of tap handles, both material and functional. If you choose a stainless steel tap, you can tap any drink, in addition to beer, also wine, cider, water or even a cocktail.
