

AS-160 INOX TROPICAL NEW 4X TAP GREEN LINE

R 290
ENVIRONMENTALLY
FRIENDLY REFRIGERANT

AS INOX TROPICAL features a thickened 45 mm insulation, even on the top cover, and is designed for extreme tropical conditions. This device can fully function even at ambient temperatures of up to 45°C.

The AS-160 INOX Tropical NEW GREEN LINE under-table water coolers are fitted with standard cooling technology using an ice bank, and they are primarily used in medium-sized pubs and restaurants, at beer festivals and larger events. The design makes it easy to install, e.g. under the bar or in other premises. Their compact size, a drain valve to easily drain water from the equipment, and a water gauge to keep track of the contents are a great asset. The coolers are fitted with taps with compensator to regulate the flow rate of the beverage, drip tray.

| BENEFITS AND USEFUL FEATURES

TROPICAL CONDITIONS – AS INOX TROPICAL features a thickened 45 mm insulation, even on the top cover, and is designed for extreme tropical conditions. This device can fully function even at ambient temperatures of up to 45°C.

INNOVATION – All of our water coolers undergo continuous development and meet all the latest safety standards and certifications (Czech and European).

AS TECHNOLOGY – Water cooling technology with an ice bank, where full ice supply provides maximum cooling performance.

OUTPUT – The AS INOX Tropical NEW GREEN LINE tapping equipment, with its increased continuous output, allows for the continuous serving of quality chilled beverages in quantities corresponding to their numerical marking in litres.

IMMERSION PUMP – The immersion pump ensures an even temperature throughout the water bath.

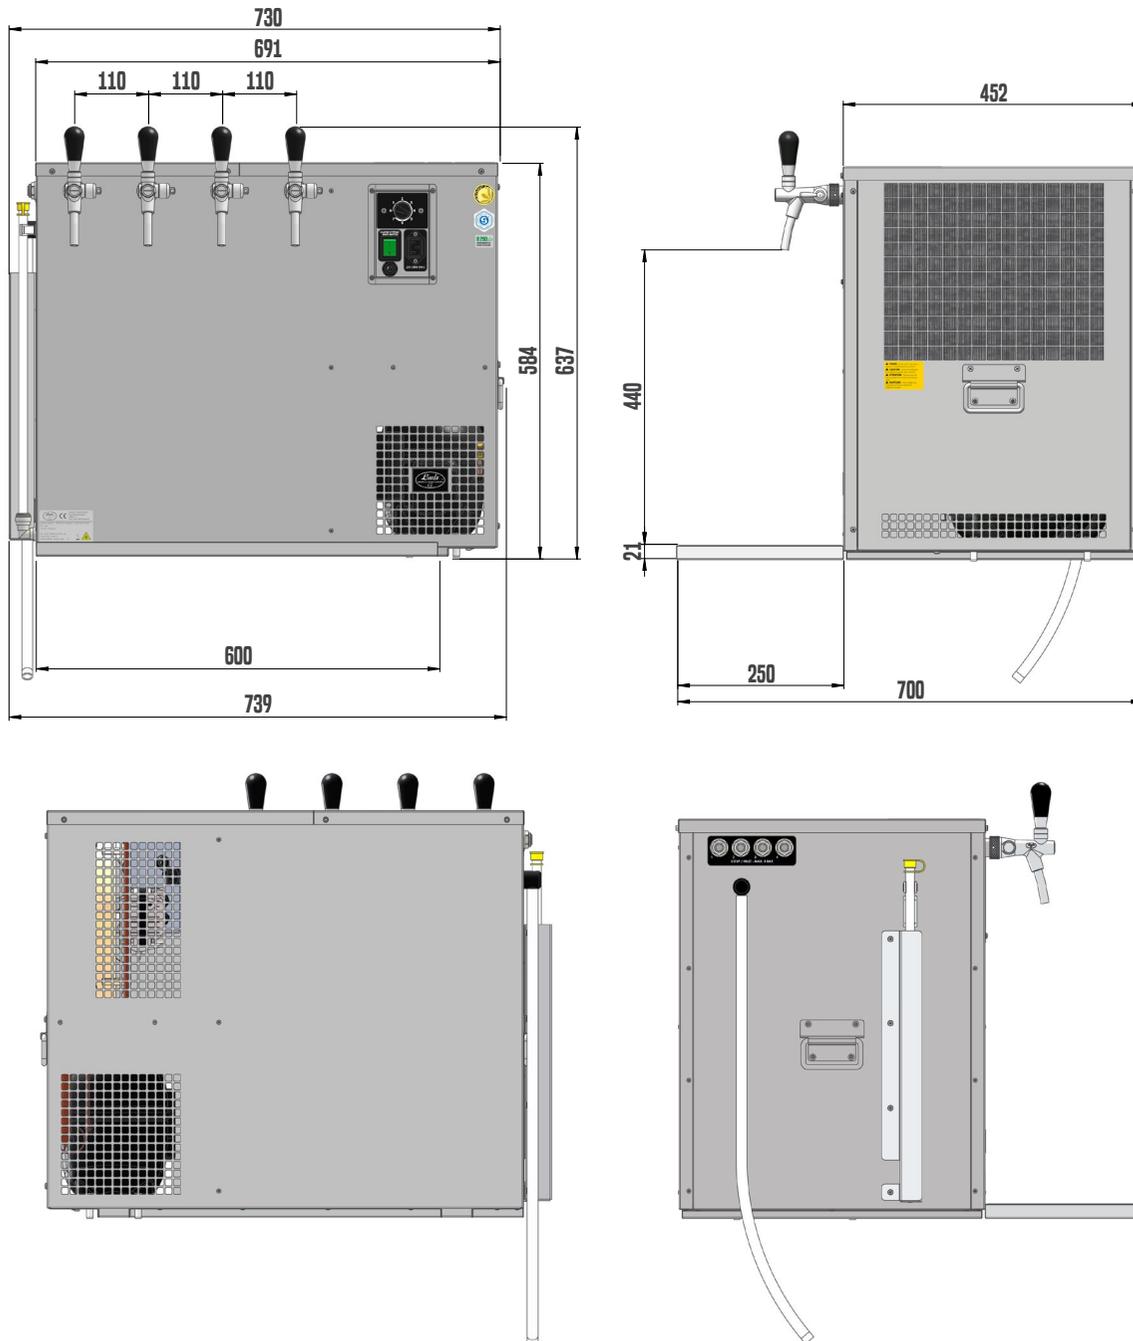

GREEN LINE – The LINDR GREEN LINE technology is environmentally friendly thanks to the use of the eco-friendly refrigerant R-290. Thanks to this design, each product achieves 20% higher energy efficiency and 20% lower power consumption. We have introduced an energy saving system in the production.

CONSTRUCTION AND SERVICE – The modern layout of the cooling technology guarantees easy accessibility for any service and maintenance.

EQUIPMENT – Standard features include a thermostat for smooth and precise beverage temperature control. The coolers are fitted with taps with compensator to regulate the flow rate of the beverage, drip tray.

COMPACT DESIGN – The AS series coolers have the best output, size and price ratio on the market.

AS-160 INOX TROPICAL NEW 4X TAP GREEN LINE

PRODUCT MODEL	AS-160 INOX TROPICAL NEW 4X TAP GL
COOLING POWER OF THE COMPRESSOR (HP)	3/4
COOLING POWER OF THE COMPRESSOR (W)	1550
MAXIMUM COOLING CAPACITY TO 0°C / TK 45°C (L/HOUR)	160
CONTINUOUS COOLING PERFORMANCE (L/HOUR)	110
THERMAL GRADIENT ΔT (°C)	10
AIR COMPRESSOR	-
ICE BANK (KG)	10-30
DISPLACEMENT OF RECIRCULATION PUMP (M)	-
RECIRCULATION CONNECTION (FITTINGS)	-
NUMBER OF COOLED BEVERAGES	4
LENGTH OF COOLING COILS (M)	2X19, 2X14
DIAMETER OF COOLING COIL (MM)	7X8
POWER (W)	828
AMPERAGE (A)	3,60
NET WEIGHT (KG)	47,5
REFRIGERANT TYPE	R290
VOLTAGE (V)	220-240V 50HZ-1
BEVERAGE CONNECTION (FITTINGS)	9,5MM (3/8")
AIR CONNECTION (FITTINGS)	-
WATER DRAIN WITH WATERMARK	YES
CUSTOMIZED OPTIONS	
CHOICE OF TAP	YES
STAINLESS STEEL SCREWING	YES
POWER CABLE PLUG	YES
DIGITAL THERMOSTAT	YES
